

3 days Training / Learning activity for trainers/ tutors /coaches

Objectives & results

Aims at preparing trainers/tutors/-coaches to cope with the new challenge of using and exploiting the innovative learning resources and create capacity to potentiate it in the future.

At the end, trainers/tutors/coaches will be at ease with the project training resources and methodologies and strategies developed and offered by the project, and will be able to promote the best use of the project resources

Who participated

The trainers/tutors/coaches were recruited by the partners among their own staff. INESCOP, CTCF, ARS and TUIASI will assign 2 trainers/coaches each.

BELCINTO and LEU LOCATI will assign more 2 tutors each from their own staff (manager, line manager or foremen/forewomen who has the role of internal training, inside their companies).

12 participants in total

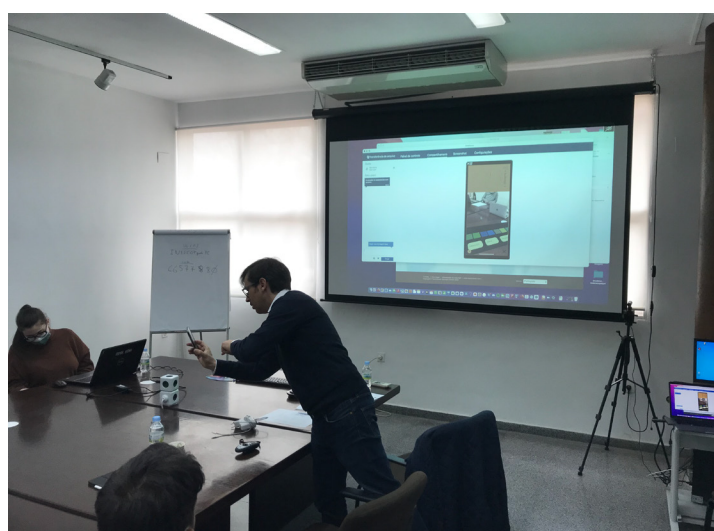

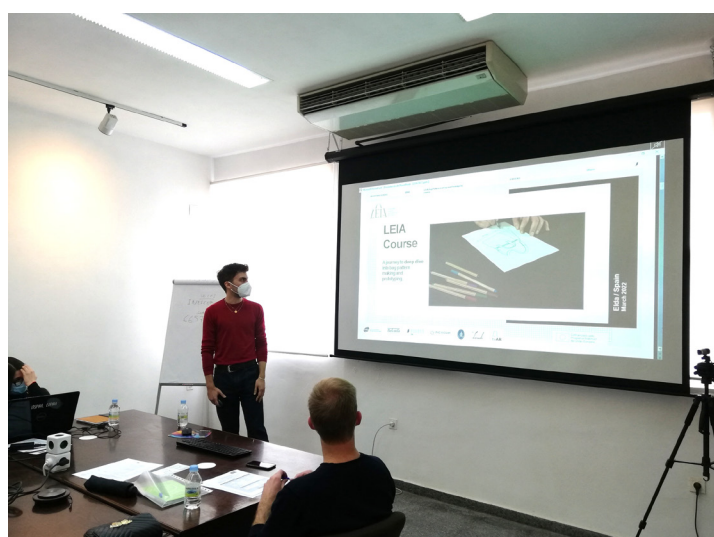

The participants will convey the information gathered and the skills acquired in this transnational activity to their own partners' organization, in cascade.

Range of training competences to be mobilized:

- Deal with news technologies for training/learning namely AR and all devices to potentiate the learning process
- Get contact with the new contents provided by the course: new materials, sustainability...
- Develop new attitudes for learning
- Develop coaching competences for WBL
- How to deal with the B-learning platform and get the most advantages of it for themselves, for the trainers in piloting and for the future after project ends.
- Get to know the industry contexts from the 4 different countries involved
- Exchange ideas, practices, among the participants/countries involved.

This learning/training activity created a strong opportunity to:

- Deal with news technologies for training/learning namely AR and all devices to potentiate the learning process
- Get contact with the new contents provided by the course: new materials, sustainability...
- Develop new attitudes for learning
- Develop coaching competences for WBL
- How to deal with the B-learning platform and get the most advantages of it for themselves, for the trainers in piloting and for the future after project ends.
- Get to know the industry contexts from the 4 different countries involved
- Exchange ideas, practices, among the participants/countries involved.
